

THE GAZETTE.

MONDAY, FEBRUARY 20

THE DIFFERENCE BETWEEN THE TWO.

With all the brouhaha of the New York Sun, and with all its hatred of republicanism and its opposition to republican leaders, it has the courage of its conviction many times, and dares to speak its mind. The other day it printed an editorial in which it drew a contrast between Mr. Blaine and Mr. Cleveland. The comparison is a very strong one, and shows how widely different the two men are.

As for Mr. Blaine, he may be said to possess at this moment more warm, ardent, enthusiastic and faithful personal friends than any other man in the United States. It is for instance, he should tomorrow morning, without any previous announcement, come out of the Tribune office after a friendly visit to its able and powerful supporter, Mr. Whitelaw Reid, and should start out to walk up Broadway, he would not get to the corner of Chambers street before he would be surrounded by a great crowd of people. Such is the attraction that his genial temperament and his brilliant talent exert over masses of men, as well as over those who know him most intimately.

To all this Mr. Cleveland offers the most slight contrast. With all the good things he has done in his public capacity, and with the strong approval that he has often received from distinguished observers, it is not too much to say that there is no more prominent citizen of the United States who has so few personal and devoted personal friends as he. In fact, it would be difficult to believe that there is a single man who is bound to him by that warm sympathy and that unselfish and unreserved attachment such as constantly surrounded his great republican rival with a sphere of enthusiastic affection.

Two men could not be more differently constructed in character and personality—the one warm hearted, generous and brilliant—the other cold-blooded, selfish and dull. The Sun, before it leaves the subject, asks the question: "If the republicans nominate Sheridan, what popular leader would be selected to head the armies of the democracy?" The Sun need not confound itself to the name of Sheridan in intimating that Cleveland would be driven from the track or defeated. There are other republican leaders who can drive the armies of the democracy into the woods.

PRISON CONTRACT LABOR.

The Milwaukee Sentinel, editorially, gives the following information. "Last winter the legislature appointed a committee, consisting of Senator Erwin and Assemblymen Hooker and Fox, to visit the various prisons of the country and report on the best means of employing the convicts. The committee has just made its report to the governor. The report declares that the contract system is the best on all accounts." And further: "The full report of the committee will be published by the state and will form the basis of future legislation. It is clear that the work has been done conscientiously and intelligently and without the fear of demagogues before the committee's eyes."

There is no doubt, judging from the character of the committee authorized to investigate the question of contract labor in prisons, that it will make just such a report as the Sentinel outlines, but when did the committee make a report to the governor? That is the question.

Chicago is enjoying high license. How it must enjoy it! It has no cheap gin places. Not one. They are all \$500 gin places. And think of it! Chicago has two millions of dollars of revenue from these saloons for the purpose of bread-baking crime! It surely doesn't expect to have the pay and not have the crime.—New York Voice.

"This is a very senseless remark, coming from a paper which pretends to be highly moral and always truthful. Does the Voice suppose that if there was no high license in Chicago, there would be less breeding of crime? Does it suppose that free whiskey in a large city like Chicago would be good for the morals of the town? Does it suppose that prohibition can be adopted in Chicago or in any other city of like population? Then when prohibition is out of the question, what would the Voice do as a present means of regulating the liquor traffic? Would it tax it as heavily as possible for the purpose of making it pay a share of the expense of the city government, or would the Voice let whiskey go untaxed that the breeding of crime may be carried on without restraint? These are important questions to be considered in connection with the liquor traffic. The wisest thing is to do the best you can until the saloon is finally made to go. Light taxation and strict regulation seem to be better methods of dealing with the saloon than free trade in whiskey."

Feature of a Big Cincinnati Whisky House. CINCINNATI, Feb. 20.—Macler & Grogan, rectifiers, importers and wholesale dealers in liquors at Pike and Pearl streets, are engaged Saturday afternoon to John Frey. Liabilities, \$150,000; assets, \$140,000.

Firemen Injured. NEW BRUNSWICK, N. J., Feb. 20.—Nine firemen were badly injured at a fire in this city Saturday. Eight were hurt by the falling of a wall. It is thought that all will die. The loss was over \$5,000.

Corbin's Gift to Destitute Miners. READING, Pa., Feb. 20.—President Corbin on Saturday sent a personal gift to Potomac, Md., to be distributed among the most destitute miners and their families.

Two Thousand Killed by an Earthquake. SHANGHAI, Feb. 20.—A terrible earthquake has occurred in the province of Szechuan. Two thousand lives are reported to have been lost.

Heavy Loss of Sheep by Snow-Storms. ALABAMA, N. Y., Feb. 20.—The loss of sheep in the Saratoga country alone during the severe storms of this winter is placed at 50,000 head by reliable authorities. This section lies partly in Central New Mexico and Arizona, and the snow-storms have been an unprecedented severity. The snow is now mostly melted, and stock is improving.

Contending for President. PITTSBURGH, Pa., Feb. 20.—A Bazaar Committee, with fifty members, was organized on the South side Friday night. The president of the club nominated Conkling for President and Governor Foraker for Vice-President. The club has called for a general meeting of citizens Thursday night next to choose these candidates.

Stanley's Work in Africa. PANAMA, Feb. 20.—Dr. Beza, the explorer, before leaving the Aruwind river Stanley would be obliged to raid the tribes to get food for his men. Hence, after he has joined Enli Bey, he will have to come home by way of Khatum, or Sukum, unless he is strong enough to force his way to Zanzibar.

Troubled with worms? Take Vinegar Bitters—best thing in the world for worms!

A CARD.

All who are suffering from the effects of misadventure of youth, nervous weakness, early decay, loss of manhood, etc., will send a note to the publisher of this paper, and will receive a free copy of the book "The Cause of Nervous Weakness." Send a note to the publisher of this paper, and will receive a free copy of the book "The Cause of Nervous Weakness." Send a note to the publisher of this paper, and will receive a free copy of the book "The Cause of Nervous Weakness."

SPECIAL TELEGRAMS.

Further Details of the Terrible Cyclone at Mount Vernon, Illinois.

A Large Number of People Killed and Wounded—Immense Loss of Property.

An Earthquake in China Kills Two Thousand People and Destroys Much Property.

MOUNT VERNON CYCLONE.

Special to the Gazette. MOUNT VERNON, Ill., Feb. 20.—Thirty-six bodies have been recovered from the awful wreck caused by the cyclone which swept over this city last evening. Many more are seriously wounded. The large supreme court building was utterly destroyed. The business portion of the city, including all the churches, is destroyed. The fires among the wrecked buildings have been extinguished. The city is almost wiped out.

General Sheridan has been interviewed in regard to his presidential hopes, and this is what he said: "Nominate me. I would not accept. But there is not the slightest probability of my being nominated; and, in any event, I would not accept. No, not under any circumstances. I do not want that or any other civil office." As a stroke of policy it would not pay General Sheridan to accept the nomination before his election, certainly. He is now in the full strength of his manhood—only 57 years old, and is the highest in rank of any military officer in the United States. It certainly would not pay him in any sense of the word, to throw up the command of the armies at a good salary—\$17,500—for only a few years of unrest and vexation in the presidential chair.

EARTHQUAKE.

Special to the Gazette. TUNA, China, Feb. 20.—An earthquake has just occurred here killing two thousand people and destroying a large amount of property.

MRS. LANGTRY.

Special to the Gazette. CHICAGO, Feb. 20.—The report published in the morning papers to the effect that Mrs. Langtry was seriously ill is contradicted, from the fact that she ate a hearty breakfast sent to her car by the Grand Pacific hotel.

SENTIMENT IN IOWA.

How the People Feel Regarding the Presidency, Railway Legislation, Prohibition, etc.

DUNGEON, Ia., Feb. 20.—A few days ago circular letters were sent out to the county Republican newspapers of Iowa asking them to ascertain as correctly as possible the prevailing sentiment among the Republicans of their respective counties. The fifty-nine replies received show that Allison is the first choice for President in thirty-three counties and the second choice in seventeen. During the choice of Lincoln and second of nineteenth. Lincoln first choice in two counties and Hawley in one. For Vice-President Senator Hawley was the favorite in twenty-seven, Harrison in fifteen, Lincoln in five, and Grant in two. Fifty-three counties favored a strict adherence to the Republican policy of high protection and six were anxious for tariff reform. Fifty-seven counties oppose the repeal of the Prohibitory law, but favor its strict enforcement all over Iowa. Among the counties reporting favorable to prohibition were several river counties—Clinton, Muscatine, Des Moines, Dubuque and Louisa, on the Mississippi, and Pottawamie and Harrison, on the Missouri. The only report in favor of a license law came from Mahaska county. Twenty-six counties favored and fifteen opposed free text books; twenty-five counties favored the common plan for providing cheaper school books and thirteen opposed it. Controversy in connection with the loss sustained by the enforcement of the Prohibitory law, as fifty counties strongly oppose and only two favor it. The reduction of passenger fares to two cents was favored by twenty-five counties, but did not have the support of the majority. Many reports say that while the sentiment is in favor of such a reduction the general idea seems to be that reductions in freight rates are more important. Thirty-five counties favor the two-cent rate and eighteen oppose it.

TO BUILD A RAILROAD TO CHINA.

The Scheme of Railway Magnates to Bridge Gelung's Straits.

ST. PAUL, Minn., Feb. 20.—A great scheme has come to light which is being worked by Chicago, St. Paul and Minneapolis railroad men. It is a railroad from the twin cities via Bismarck, British Columbia and Alaska, to Peking, China, and to Japan. The Russian Railroad Company is already working to Victoria. There is a line will be built to Cape Prince of Wales, on Bering Strait, 1,300 miles. The strait is only thirty-five miles wide, and is dotted with islands. Consequently a crossing will be made by boats, but as the water is not deep it is expected some time to bridge it. On the opposite shore, at East Cape, the line will skirt for interior points. Russia is already building to Irkutsk and this line will be extended to meet the American road. The projectors claim that the scheme is not visionary, but is founded on solid business principles. Trains could make the distance in ten days.

An Old Couple Found Dead.

LONDON, Feb. 20.—J. Cunningham Graham, member of Parliament for Lancashire, and John Burns, the Socialist leader, who were convicted of having taken part in an unlawful assembly in Trafalgar Square, and were sentenced to six weeks' imprisonment each, were released from the Pentonville prison yesterday. A crowd had gathered around the prison, and when the men emerged they were given an ovation. Upon being set at liberty, both rushed to an obscure office-house and ate an enormous breakfast. They declared that they were starved while in prison.

Mrs. Langtry's Lucky Investment.

CHICAGO, Feb. 20.—During a professional visit to Carson City, Nev., a year or two ago Mrs. Langtry, the famous English beauty, purchased forty acres of land covered with sage-brush. Proceeding to sink an artesian well thereon a vein of silver was struck, and the land being worked has resulted in "paying out" in a most profitable manner. An assay of ore taken from a shaft sunk on the ground is said to have yielded \$10 to the ton.

A Train Stopped.

ST. LOUIS, Feb. 20.—A dispatch says that a mob attacked the Galveston & Kansas City north-bound passenger train near after it left Fort Worth, Tex., Saturday night. They threw stones through the windows, injuring several passengers and seriously wounding D. D. Baker, of New York. It is believed that the intention was to induce the guard to come out of the car, kill him and then rob the train. Such an attempt was in vain, as the train did not stop.

A Great Publisher Dead.

NEW YORK, Feb. 20.—A. S. Barnes, the well-known book publisher of the firm of A. S. Barnes & Co. of this city, died at his residence, No. 513 St. Marks avenue, Brooklyn, Friday night. Mr. Barnes was the founder and senior member of the book-publishing firm of A. S. Barnes & Co. of New York and Chicago. He was born at New Haven, Conn., January 28, 1817.

44-acre farm, with good, new house and near the city, must be sold soon at the best price obtainable.

C. E. BOWLES.

STRIKERS DIVIDED.

Many Reading Miners Dissatisfied with the Settlement.

THE SITUATION THOROUGHLY DISCLOSED.

READING, Pa., Feb. 20.—The news that the strike is over has occasioned rejoicing among all classes of citizens except the railroad employees. They are bitter in their denunciation of the manner in which they have been deserted by the representatives of the several miners' organizations. Business men are of the opinion that the threats of the farmers and the hands will amount to nothing, and that the railroad company possesses ample facilities to transport business.

THE READING TROUBLES.

READING, Pa., Feb. 20.—The news that the strike is over has occasioned rejoicing among all classes of citizens except the railroad employees. They are bitter in their denunciation of the manner in which they have been deserted by the representatives of the several miners' organizations. Business men are of the opinion that the threats of the farmers and the hands will amount to nothing, and that the railroad company possesses ample facilities to transport business.

READING, Pa., Feb. 20.—Meetings were held by the striking miners throughout the Schuylkill region yesterday to vote on the question of obeying the order of National Master-Workman Lewis to return to work this morning. About half of the miners who said that the strike would hold out for the present and await results. Nevertheless the backbone of the strike has been broken and the miners are ready to return to work. Many of the miners are now in their homes, and the strike is over. They say he has sold them out, and that it is a scheme to break up the organization. Mr. Lewis, on the other hand, is charged by walk-outmen, knights, the full power of the strike, and his orders must be obeyed. The Reading Company will start up its collieries today—that is, such of them as are ready to return to work. The men will be given an opportunity to return to work. No questions will be asked.

SHREWSBURG, Pa., Feb. 20.—The miners of this section met in Robbin's Opera-House yesterday to vote on the order for resumption of work. Two votes were taken, the first being almost unanimously against going to work. After addresses by James Brennan of the joint committee, James MacCall and other who said that the strike was lost as fought so far, that many families were starving, with no hope of speedy relief, and that the offer made was fair and reasonable, a second vote was taken, and the miners agreed to take with only one dissenting vote.

READING, Pa., Feb. 20.—At a meeting of Knights of Labor miners held here yesterday, it was decided to obey the instructions to return to work to-day.

PELLEPHIA, Feb. 20.—The Congressional Committee engaged in investigating the Reading railroad strike resumed its session Saturday morning at 10 o'clock. When the strike was ended Friday evening it was thought the inquiry might terminate abruptly, but the committee is evidently determined to make the investigation a thorough one, and the inquiry will be extended to every part of the field which the strike covered.

Treasurer Church of the company, said in January, 1887, wages amounting to \$732,000 had been disbursed; but month after month the amount was \$100,000 less. A leading striker of Port Richmond, said the strike began at Port Richmond in the refusal of workmen to load boats for a firm employing non-union men. At the same time 375 police were put on guard at Port Richmond, and the men there struck in consequence. A committee of the men subsequently went to Swiford, who agreed to arbitrate the trouble, the men meantime to resume work. Fifty men at Palo Alto desired to resume, but were denied work. Then the general strike was ordered. The men disliked having police on guard, but did not have the right to the company in that matter. In answer to questions of Mr. Anderson witnesses said the men claimed the right to combine for the maintenance of wages.

BOOKS IN A BLAZE.

PLATES OF SEVERAL WORKS.

PROVIDENCE, R. I., Feb. 20.—The Daniels building on Canton street here burned yesterday. Very little of the contents was saved. Besides a valuable plant the Messrs. Reid lost the plates of their publications "Pictograph Washington," "S. C. Cook's book," "Three Decades of Federal Legislation," "The Life of Burnside," "Portland and Vicinity" and illustrations of several other of their books. They had about 50,000 bound books on hand, including 500 of Congressmen's works. One fireman was suffocated. The total estimated loss to the occupants of the Daniels building is \$248,000; insurance, \$205,000.

ANTI-SALOON REPUBLICANS.

NEW YORK, Feb. 20.—The Anti-Saloon Republicans' National Committee have issued a call for a National conference to be held in this city April 15 and 16 next. The purpose is stated to be: "To assure and signalize the complete withdrawal of the National Republican party from all complicity with the saloon traffic and to emphasize its positive antagonism thereto."

BIG MILLS BURNED.

PATENTERS, R. I., Feb. 20.—The Lebanon mills owned and run by Edward Thayer, about three miles from here, burned last night. The mills were run on rubber linings and cotton yarn. The loss is \$150,000; insurance, \$68,000. The Riverside mill and the Atlantic mills boarding house were also damaged.

THE DEMOCRATIC CONVENTION.

WASHINGTON, Feb. 20.—Members of the National Democratic Committee are beginning to arrive to select the meeting next Wednesday to select a place for the Democratic convention. There is an unexpected San Francisco boom, but probably not sufficient to carry the convention further West than Chicago.

WE HAVEN'T ANY OLD WATERPROOFS AND CASSIMERES

That were out of date ten years ago, or Shoddy Underwear to offer the public at pretended cost prices, but We Have Just Received from the Eastern markets the best selected, the newest styles, the latest and most desirable shades and colorings of

LABOR AND LABORERS.

A HOLLING-HILL is projected at Craperville, N. Y.

KANSAS people are pushing coal development.

MILWAUKEE, Wis., has a six-foot coal vein 100 feet.

The color production of Colorado last year was a little over 200,000 tons.

In Europe a brickmaker makes 800 bricks a day; here one makes 2,500.

There are over 6,000 stoves and ranges now manufactured in Taunton, Mass.

The average weight of a locomotive and tender is seventy tons, and the average load is 3,000 tons.

It is estimated that 400 miners and mine laborers mined \$1,000,000 worth of coal in the state of Ohio.

The Scotch steel masters are in producing the finest labor, which is paid fifty cents per day.

PENNSYLVANIA gas expert says that a ton of coal at a mine is worth a portion of a ton of gas.

The Canadian Pacific Railroad Company will run 200 additional locomotives as soon as they are needed.

St. Louis steel company has just bought a large magnetic ore tract in North Indiana, and is looking for a site for its plant.

The Scotch miners have asked for an increase of 13 cents a day, and as two coal contracts a strike was averted by the granting of a 12 per cent. advance.

It is said that enough Bessemer ore has already been located in this country to supply the wants for one hundred years, and is being found every month.

James H. McLaughlin, president of Mechanics at the National railway mill, of Mechanics, Pa., has made and patented a machine which, he claims, will turn out 10 rails from any machine in use.

The spirit of trade organization is extending into every channel. Some twenty manufacturers are pressing machine manufacturers to establish a cartel between Chicago and Wisconsin have organized an association to prevent cutting of prices.

throughout the West. A great many manufacturing concerns are altering their policies and are turning to the coal. In fact, it is the belief that the supply will be more regular and the cost ultimately lower.

A twenty-mile electric railway system is to be constructed from Detroit, Mich., to a fashionable resort. There will be three trains, and \$20,000 worth of half-inch gauge rails will be laid down. There will be three closed cars for winter and open ones for summer.

The State of Alabama has rented 6,000 acres for ten years, at \$10 per month, to a lot of white men, who are to plant 100,000 trees of color per day. An inspector of views is there with his gang of whippersnappers to take pictures of the trees. He says that the Praxi people shall get their money's worth.

It is said that a syndicate of four men have \$25,000,000 invested in manufacturing establishments, namely, Conger, Ray, Smith, Perkins and Darbor; the latter of whom is a member of the National Agricultural Gas fields of Ohio and Indiana. They are credited with the intention of doing up the paper-making manufacturing centers.

SHOULD A FARMER SUFFER

The best advice in the world for a farmer, who has a family, is to get a bottle of Dr. Williams' Pink Pills for Pale People, and keep it handy. It cures all skin eruptions, and removes every trace of impurity from the blood, and cures all the troubles of the system. It is guaranteed to give perfect satisfaction, or money refunded. Price 30 cents a bottle. For sale by E. Sherrill & Co., Boston.

BORDER BURIALS.

Some That Were Sad, and Some That Were Laughable by Circumstances.

Many of the border burials were pathetic in the extreme, but connected with some of them were circumstances so amusing that their realing almost resolved itself into a kind of humor. One of the funerals to occur at Grant Bend, Kan., says the New York Sun, possessed unusual "bordered" circumstances enough to make it humorous, if the unexpected is a tribute of humor.

An old and somewhat disreputable Henry Turley by name, had been cooped up in the hospital for some time with a disease which baffled the skill of the world's physicians who attended him. He seemed to grow steadily worse, and his death was hourly expected. One day, however, he seemed to rally for nearly a month, was broken by a fall in spring, the Turleys of the little settlement took Turley's censes in hand, and decided that, as his death was certain within a few days at most, it was his duty to take advantage of the mild weather and dig a grave for him: then to await his death and the probable return of good weather, when grave digging would be extremely difficult. The grave was a

[illegible][illegible]

The snow, and arrived to find the rats there before them. The "tail-board" was out of the imprudent hearse, and the coffin had disappeared. It was not recovered till the snow partially melted, and it was a very sorry sight. Then the relatives arrived and took the body East with them, and Turkey's grave was unfilled still a cow broke her leg by falling into the pit. The grave was then reconsecrated a public nuisance and filled with dirt.

There is a little story of patches in the East. A few days after the funeral at Lawrence, Kas. Moses Pomroy arrived from Illinois in 1856 and set bravely to work to make a home for a dear one left behind. The dirt of much labor is improved his most contented considerably, and erected a house fit for comfortable abode. Then, full of the thought of his dear one, he wrote for his waiting sweetheart to come.

On the journey, mostly by stage and

The girl found that her lover had been taken down by a disease much like pneumonia fever shortly after writing for her, and during his illness he had no thought of writing to her. Her mother, a very annoying man, and his constant reminder was that he might live, long enough to see her, but this was denied her. She was left with the knowledge that her name on his lips. The next day after the girl's arrival the body of her lover was borne to the tomb. She was not allowed to be taken to the tomb in a hearse. Laid on a stretcher in a plain coffin, the body was carried in a lumber wagon to the little cemetery. The loved one died man rested in the earth, and his living wife was left as well as possible from all far that came from the passage of the spring breeze upon her cheek. The Cloud County was started in 1861. The little settlement consisted of only six houses, and there were no stores. The town was located within fifty miles. From these six houses the last necessary pieces of furni-

The Sign Manual of Poverty.
Many years ago—it was when the four
repar Brothers were living—a well-
known physician came into their office
one day and was talking with one of
them about some patient who had been
very weakly born. He called his attention
to it, saying that it would be well if he
asked her wife to mend it, as it did
look well for a pangenion to go about
in such a state in their condition. The
doctor, sternly, "I prefer
it it should remain as it is. A dear
the accident of a day, but a darn
design manual of penury."

LAKE SUPERIOR'S WATER

It Is Almost as Cold as Ice, and So Gives Up Its Dead.

How cold the water of Lake Superior is, says Frank Wilkinson in the New York Herald. One evening, when we were sitting around a fire, I told him that the water was so cold when a man fell overboard he could not say "Nothing."

"Why?" I asked, astonished at his boldness.

The water of Lake Superior is so cold that a man can not live in it during the winter. It takes so long to rapidly moving vessels to lower a boat," he replied. Then he added that he had sailed on this lake for twenty years.

During the summer months the water is so warm that men can swim in it without getting chilled. In fact, many of them who escaped death. He was saved by a scratch. The others were apparently killed by the cold produced by falling into so cold water." He picked up an empty can which long standing was attached and set it overboard. The can skipped from crest of one wave to that of another for some time, then dipped and flunked. The speaker headed me off before I could ask him what he intended to do, saying: "Take a drink of the water and then say what you think of my chances of swimming in Lake Superior for five or fifteen minutes." I drank deeply and said there was though fresh ice flowed down a throat.

"It is all right," the mate said, "that Lake never gives up its dead, that means that the Lake Superior is to be buried for all time."

I said that I did not know whether it was true or not, but I do know that if I never seen a corpse floating on the lake, I wonder if that is true! I doubted it, I said that the sailor who had never seen dead body floating on the lake.

OH! MY HEAD.

The pain from Neuralgia and its companion disease Rheumatism is excruciating. The sufferer who could be quickly cured are needlessly suffering. Ath-Phoro-ne will do for others what it did for the following patients:

WILLIAMSON, Ida, Oct. 6, 1897.
Having been afflicted with neuralgia for the past four years and having tried everything, but in vain I finally began to feel better after taking one bottle of Ath-Phoro-ne. After taking three bottles I was able to perform my usual duties. I have lost all apprehensions as to the future. I found that I was entering well. I thank the new cure for restoring me to health.

QUAYNOR, B. R. BRIDGE,
St. Catharines, Ont., Dec. 20, 1897.
I have used Ath-Phoro-ne in my family and find it to be the greatest medicine we possess for rheumatism and neuralgia. It has relieved me of the most painful attacks of both diseases. I can recommend it to those who are afflicted with either of them. I am very truly yours,
B. R. Quaynor

WANTED—By a willing young man attending our school, place to work out of school hours and Saturdays for his board.

VALENTINE BROS.

entertainment as March 6th instead of March 12th. The entertainment is likely to be one of the best given during the season, this being assured by the names of those taking part. There will be thirty in the company, an orchestra of ten pieces, new costumes and—probably—a street parade of surprising proportions.

—It was late Saturday afternoon when the handsomely decorated train of agricultural implements going from Madison to San Francisco passed through this city. The train was sent out by Puller & Johnson, and is to run most of the way to the Pacific coast on regular passenger time. A novelty in its equipment is the employment of air brakes on every car, it being one of the first freights on which such brakes were employed.

—Among the articles now needed by the city hospital are the following: Kitchen knife and fork; wire broiler; clothes basket; clothes line and pipe; astrone; wicker; wash tub; large ironing table; coffee pot; iron board; trays; roller; crash; furnished work basket; table spread for reception room; table knives; teaspoons (good plate); small wire pithers; refrigerator; night shirt; night dresses; cotton bathing; stew pan; night matches; carpet for reception room; door mat and rug; blacking brush for stove and empty flour barrel.

CAUGHT ON THE FLY.

Remarks on the Fire Alarm, and Other Local Topics.

Standing in the postoffice doorway this morning the remarks heard were of considerable interest. A good many of them related to the subjoined and unobtrusive fire alarm, while others didn't. Here are a few:

Who ought to put on a whistle.

Who you goin' to run for alderman?

It looks like snow.

That bell ain't any.

Give me a cigarette.

Her father "sicked" the dog on me.

If they don't get a better alarm all of the fire police will resign.

Phew!

He's a big chump.

She doesn't think he knows it.

What club does he belong to.

They ought to throw the whole thing in the river.

Never had on introduction.

Capt this is a nasty wind.

Does his mother know he's out.

Didn't hear there was a fire until breakfast time.

Through sleeping cars to the Pacific coast.

By special arrangement, beginning March 1st, the Chicago & North-Western Railway will dispatch for special parties new Family Sleepers, to run through from Chicago to Los Angeles, California, and Portland, Oregon, without change.

These cars provide sleeping accommodations free of charge.

For detailed information, apply to the agents of the Chicago & North-Western Railway or to the General Passenger Agent at Chicago.

Fortunate Souled Upon Them.

Every great fortune is conceived with risk and is built upon a foundation of venture. A reporter on the "Traveler" bearing head that fortune had bestowed a sum upon Miss Augusta Flene, 2437 Archer avenue, Chicago, called upon that lady to ascertain the facts. She was found to be a bright and intelligent young girl in the employ of the Singer Sewing Machine company. "Yes," she said when questioned, "I have been rather fortunate. I held one-half of ticket 73,185 in the Louisiana State Lottery the drawing of which took place January 10th, 1888 and drew \$200,000. I had several times before and just before I was beginning to feel discouraged, I drew a prize. The money was paid promptly. I expect to buy a house for mother and I to live in, and you will know how thankful I am when I tell you that I am mother's only dependence. I will continue to hold my present position."

The reporter then called upon John Oimzen, captain of No. 13, Chicago City department, who is a frank and good humored gentleman and seemed to take pleasure in telling the reporter how one of tickets No. 70,000 of the Louisiana State Lottery had brought him \$1,000, and said that he meant to keep it in reserve. "I have just so much made, you see, for I would spend the money some other way and stand no chance of great reward. Paid promptly," he said. "Well, yes—got a check before I left, thought my letter to the reporter was a forgery—Chicago (Ill.) Tribune, Tuesday, Feb. 11."

A Remarkable Record.

Notwithstanding the adversity of the elements, and in spite of the storms and blizzards which have been reported as impeding travel in the great Northwest, we have from the Chicago & North-Western Railway the official statement that the "Overland Express" between Chicago and Council Bluffs during the 50 days of its operation, from December 20th to February 10th, has suffered no serious interruption in its movement. During only four days of the time—in the midst of the great January storm—was this train as much as one hour behind its schedule. Eight times its arrival was within one hour of schedule, and in every other case its arrival was not more than one hour late.

It is confidently asserted that no fast train upon any other road in this continent can do better the same period show a better record.

THE WEATHER.

At seven o'clock yesterday morning the thermometer indicated 35 degrees above zero. Light rain with southeast wind. At one o'clock p. m. the register was 41 degrees above zero. Cloudy with southeast wind. For the corresponding hours last year the register was 14 and 20 degrees above zero. At seven o'clock this morning the thermometer indicated 20 degrees above zero. Cloudy with southwest wind. At one o'clock p. m. the register was 22 degrees above zero. Partly cloudy with southwest wind. For the corresponding hours one year ago the register was 20 and 30 degrees above zero.

Notice.

All persons indebted to the Empire Cross Spring Co. are respectfully requested to call and settle at once. All accounts and notes due and unsettled after the first day of March, 1888, will be placed in the hands of an attorney for collection.

EMPIRE CROSS SPRING CO., O. F. NORTON, Treasurer.

Try a pair of oil grain shoes for \$2.50, at Minor's, opposite P. O.

Valentine for 1888 at Sutherland's bookstore.

ALARM BOX FORTY-ONE.

Calls the Fire Department to 107 Rock Street, at 3:54 This Morning.

The Dwelling House of William Norton Badly Damaged by Fire.

At 3:54 o'clock this morning, Thomas Peay, the night watchman in the Jewellville Machine Co. shop, started in an alarm of fire from box 41, calling the fire department to 107 Rock street, fourth ward. The fire department responded in quick time, the fire proving to be in the dwelling house of Mr. Wm. Norton, at the above location, and had gained considerable headway, especially in the second and third stories. The steam engine took water from the fourth ward fire engine, and soon had two powerful streams of water on the fire, which was quickly subdued, but not until it had worked up under the roof of the main building, doing considerable damage to the roof.

The fire evidently caught from a defective chimney in the annex—a one story structure on the east. This was totally destroyed.

The furniture in the main building was mostly removed in good condition; that in the annex was more unfortunate, the most of it being destroyed, as that portion was filled with suffocating smoke preventing access to the furniture.

The noise of the burning house awoke the family who made their escape.

The loss on the building will probably not be far from six hundred dollars, while the loss on furniture will hardly exceed two hundred.

There is an insurance on the building of \$1,700 in the Germania, of Freeport, and \$900 on the furniture in the same company, Simon Strasse, agent.

The fire department did some excellent work at this fire, and the fire alarm system played an important part in it, forming the department of the location, and that too in advance of the usual time.

FROM TWENTY-THREE.

At 7:51 o'clock this morning an alarm was turned in from box 23 located at the corner of Fourth avenue and Caroline streets, (second ward). The department responded in quick time, arriving on the hill near East street and Prospect avenue, it was discovered that a burning chimney at the residence of J. D. Uell, 100 Prospect avenue, was the cause of the alarm, and the firemen were ordered back to the fire to the chimney had spent its force. No damage resulted.

BROKE HIS COLLAR COLE.

An unfortunate and painful accident befall Mr. Wm. B. Spicer, ex-foreman of the Hook & Ladder Co. in responding to the fire alarm at 3:54 this morning. Mr. Spicer resides on Lincoln street, close by Mr. Norton's. In an endeavor to save time and distance by "cutting cross lots," he passed through his own lot and while hurrying through that of his neighbor on the east—being in the dark, he ran against a clothes line the line catching him under the chin. Mr. Spicer lay on the frozen ground for several minutes, and on coming to his senses, he made his way to the sidewalk, feeling very faint. He finally reached the scene of the fire, but was so weak from the effects of the fall—he had just partially recovered from a severe indisposition, being confined to his home for several days—that one of the hook and ladder men, Mr. Kelly, took him back home and called Dr. Q. O. Sutherland, who found that the right collar bone had been broken by the fall. The break is a bad one, but will keep Mr. Spicer housebound for some time. As stated, he had just recovered from a brief sickness, and intended to resume work this morning at the Jewellville Machine Co. works, he being foreman of the machine shop. A reporter of the Gazette visited Mr. Spicer at ten o'clock this morning and found him resting quite easy and comfortable.

THE LADY IN THE HORSE CAR.

Woman with sashel collar cut, (down; conductor enters, sashel collar opens sashel, takes out purse, sashel sashel, opens purse, takes out dime, sashel purse, opens sashel, puts in purse, sashel sashel, takes dime, receives nickel, opens sashel, offers dime, puts nickel, sashel sashel, takes dime, puts nickel, sashel sashel, opens sashel, puts in nickel, closes purse, opens sashel, puts in purse, closes sashel, stop the car, please.—Philadelphia Record.

FOOT EXPERIMENT.

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems, at first, only a cold. Do not permit any dealer to impose upon you. Buy King's New Discovery for Consumption coughs and colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something that is good, or that he has a new discovery. Buy King's New Discovery, which is guaranteed to give relief in all throat, lung and chest affections. Trial bottles free at Frank Sherer & Co., Drug Store.

TOBACCO SALES.

Sales of Seed Leaf tobacco reported by J. S. Gans' Son & Co., Tobacco Brokers, No. 131 Water Street, New York, for the week ending Feb. 20, '88:

CONRADE KIMBERLY.

His Remittal of "Marching Through Georgia" at the Milwaukee Entertainment.

To the Editor.

I desire through your columns to briefly allude to a very high and meritorious compliment paid one of your citizens at the recent G. A. R. encampment at Milwaukee. We allude to Comrade E. C. Kimberly in reciting the famous song "Marching Through Georgia" before the large and brilliant audience on the occasion of the banquet of Wednesday evening. We must say that among the many enjoyable things of that grand affair, none seemed to call out more hearty endorsement than Comrade Kimberly's songs.

We have known him intimately for 25 years and cannot see any change in his magnificent qualities. We were at Goldsboro, North Carolina, when Kimberly had the honor of reciting this song before the brave, dashing General Sherman, from which time and place it became national as a popular war song, and in that sense the association of Comrade Kimberly's name with the song merits the larger share of that popular preference, he being the first to render it so before the general of the armies of the west, as well as this public.

Col. Watson, in his inimitable manner, introduced Comrade Kimberly to the audience; after it was rendered, such applause as followed could not be overdone. We have only to say, we wish Broadhead, his old home, could rightfully claim the honor of furnishing the Milwaukee encampment this valuable addition to the grand entertainment of that evening, instead of Jacksonville. Comrade Kimberly was the leader of the famous Brigade band in Logan's old division, and marched through to the sea; he is one of the best vocalists in the state and is always and everywhere a gentleman, that any locality can be proud of. The hearty congratulations of such comrades as General Fairbairn, Griffin, Watrous and others, should give friend Kimberly renewed confidence in his ability to please great audiences with his superb musical powers.

THOS. A. JACKSON, Late Capt. Co. B. 15th Wis. Vols., and Commander Post No. 90, Broadhead, Wis.

WASHINGTON'S BIRTHDAY.

HOW IT WILL BE CELEBRATED BY OUR LOCAL CATHOLIC SOCIETY.

A meeting of the different Catholic societies was held yesterday afternoon, at which final arrangements were completed for the great parade on Wednesday (Washington's birthday) and for the lecture in the evening.

The procession will start from the rooms of Division No. 1, A. O. H., at 12:30 o'clock sharp, and will be composed as follows:

Chief Marshal—John W. Hogan.

Assistant Marshals—John R. Ryan and Daniel Ryan.

Catholic Central Band.

Division No. 2, A. O. H., very Dr. Patrick T. A. & D. Society, The Land League.

All other societies wishing to join the procession.

The procession will march through the principal streets, arriving at the depot at 1:15 p. m. in time to receive and escort the speakers to the hotel.

In the evening at Myers New Opera house, the Hon. J. W. Hines and Judge Fendlergrast, of Chicago, will address the public, for the benefit of the Land League. A cordial invitation is extended to all to attend and listen to the eloquent speakers.

BOGUS COIN.

Regarding the circulation of bogus coin, the Milwaukee Journal has the following, relating particularly to the new counterfeit iron dollars: Bogus coin is making its appearance in many portions of the west. Among this class of issues are cast-iron dollars heavily coated with silver through galvanic processes. They stand all usual tests of weight or by acids, but lack the true ring of the genuine. In Wisconsin some of the species recently put afloat seems to be the old fashioned bogus, short in weight, slippery in feeling, and an unsuitable metal. This variety can only deceive such as are unaccustomed to handling specie; but the cast-iron counterfeit is much more dangerous since it withstands the usual tests. Inequality is ever on the alert to catch the unwary, and this mischievous period. Several persons are now under arrest for passing this class of coin, but as yet the manufacturers have escaped detection. The country has an over supply of genuine silver, which is in excess of all demands of currency, and can well dispense with the service of counterfeiters, who are among the meanest of all robbers, as they prey mostly on the poor and ignorant. To stop the evil our governments need recruiting to the full extent. It is a class of industry that needs no encouragement.

Don't Give Up the Ship.

You have been told that consumption is incurable; that when the lungs are attacked by this terrible malady, the sufferer is past all help, and the end is a mere question of time. You have noted with alarm the unmistakable symptoms of the disease; you have tried all manner of so-called cures in vain, and you are now despondent and preparing for the worst, that don't give up the ship while Dr. Pierce's Golden Medical Discovery remains untried. It is not a cure-all, nor will it perform miracles, but it has cured thousands of cases of consumption, in its earlier stages, where all other means had failed. Try it, and obtain a new lease of life.

Western Passengers.

Western passengers should bear in mind that the Chicago & North-Western railway is the only road furnishing a direct outlet, without tedious delays and lay-overs, between Janesville and Council Bluffs, Denver and all Colorado and California points.

The train leaving Janesville at 12:05 p. m. makes direct connections at De Kalb with the Northwestern main line train running through to Council Bluffs without change, and making direct connections there for all points west and southwest.

Full information can be obtained by applying to C. A. Potter, agent, Janesville.

AGENCY AND HALEY TO BE EXAMINED Thursday—Janesville Filecase.

Ernest Haley and John Hagerty came before Judge Patterson this morning. The court was busy with the Williamson case and a postponement was agreed upon until Thursday. Then the two will be given a chance to plead; and an examination as to their innocence or guilt will be taken up.

With Haley, as has been before said, the matter is likely to be a serious one. When he was found guilty of making away with the goods stolen from Sather's store by Hoss, he begged so hard for a chance to reform that sentence was temporarily suspended. From all appearances the reformation was not very thorough; and as highway robbery is a penitentiary offense Haley's chance for a speedy return to liberty are poor.

With William Arkeson, on the contrary, matters are beginning to grow brighter. Arkeson was arrested, as will be remembered, for "bumping up" a stranger in the fourth ward. Since his attempt to break jail fastened out his back, he has become thoroughly penitent and his parents are interceding with Marshal Hogan and District Attorney Malone to have the complaint against him changed from highway robbery to larceny. It is very probable that this will be done, and in case it is the sentence will be to jail instead of state prison.

ONE CHANCE IN TEN.

Little Ray Lee in a Precarious Condition.

Late Saturday afternoon little Ray Lee was removed from the house of Mr. O. H. Turner to that of his father, Conductor Richard Lee, of the first ward.

When the surgeons operated on the fractured skull Saturday afternoon they were surprised to learn the extent of the injuries. Thirteen pieces of bone were extracted from the gash over the forehead before the operation was finished.

To-day the little fellow is somewhat easier than at any time since the accident, and is no longer out of his mind. His first words on recovering sensibility were: "Are any of the other boys hurt?"

It is stated by the physicians that the chances of recovery in the case are not much more than one in ten. All depends upon whether or not the boy has sufficient vitality to pass through the crisis which may not be reached for several days.

SECRETS OF THE TOILET.

How Horace John's Maria Looks When He Gets to the Night.

Maria began to go to bed at 10:30, and really finished the shower at 11:30. Maria writes Clara Bello in the Boston Herald: "My hair was taken down, brushed and done up to wear at the sides and curled at the top. My face was washed with cold water, and my hair was combed with my fingers. For my hair I was carefully rubbed up and down by the tips of the fingers under the eyes. Then the mouth was held open in the shape of an 'O' and the hair was pulled from the ears toward the nose. A tremendous effort was made with that treacherous spot just under the chin that will get away from you if you do not keep it under control. Then Maria smoothed her hair. She brushed her teeth carefully. She wet a lock of cotton with rose water and put it in her mouth at the base of her throat, and then she brushed her teeth and the window with it. This is a so-called wonder cure preventing any further on the part of the cheeks."

All this time a delicious heat was stealing in a small silver vessel, and Maria was looking at it with a look of intense interest. Maria's hair was taken down, brushed and done up to wear at the sides and curled at the top. My face was washed with cold water, and my hair was combed with my fingers. For my hair I was carefully rubbed up and down by the tips of the fingers under the eyes. Then the mouth was held open in the shape of an 'O' and the hair was pulled from the ears toward the nose. A tremendous effort was made with that treacherous spot just under the chin that will get away from you if you do not keep it under control. Then Maria smoothed her hair. Maria's hair was taken down, brushed and done up to wear at the sides and curled at the top. My face was washed with cold water, and my hair was combed with my fingers. For my hair I was carefully rubbed up and down by the tips of the fingers under the eyes. Then the mouth was held open in the shape of an 'O' and the hair was pulled from the ears toward the nose. A tremendous effort was made with that treacherous spot just under the chin that will get away from you if you do not keep it under control. Then Maria smoothed her hair. She brushed her teeth carefully. She wet a lock of cotton with rose water and put it in her mouth at the base of her throat, and then she brushed her teeth and the window with it. This is a so-called wonder cure preventing any further on the part of the cheeks."

All this time a delicious heat was stealing in a small silver vessel, and Maria was looking at it with a look of intense interest. Maria's hair was taken down, brushed and done up to wear at the sides and curled at the top. My face was washed with cold water, and my hair was combed with my fingers.
